Understanding Enzymes & How They Work

The enzymes in **Wooshkah™** break down a wide array of organic contaminants and odours simultaneously just like your laundry detergent does at a rapid rate.

- The enzymes in **Wooshkah™** were developed in the mid 1990's from within the Bio-Technology sector and are sold globally.
- **Wooshkah's™** formulation is centered around its responsibility to the environment first and foremost.
- **Wooshkah's™** strength is not only stain removal but odour removal as well – pet urine and vomit to name but a few.

Protease Enzyme
& Protein

Lipase Enzyme
& Lipid (fat)

Amylase Enzyme
& Starch

Wooshkah™ Will Remove The Following Stains

- Gum
- Coffee
- Eliminate odours – pet urine / vomit
- Grease & Oil
- Milk & Dairy by products
- Blood proteins
- Red Wine & Cordial
- Ink & Markers
- Tar

WOOSHKAH

SPOT REMOVER

Wooshkah™ Parameters

- Enzyme activity is instantaneous
- Will work in temperatures up to 65°C
- Will work within a pH range of 3.5 to 11
- Cuts fatty acid carbon chains without allowing them to reform

Why Wooshkah™ Is So Superior

- **Wooshkah™** is fantastic because it delivers desired results first time and every time.
- What is great about **Wooshkah™** is the speed in which it delivers results.
- The best part about **Wooshkah™** is its ability to remove such a diverse range of stains from one bottle.
- What sets **Wooshkah™** apart from its competitors is Mother Nature's inherent ability to clean and remediate.
- If you do not buy **Wooshkah™** you run the risk of still having a stained carpet.
- If you buy **Wooshkah™** you are going to get a carpet cleaner that will deliver the results you desire.
